INJEMIRA ROBERT REDFORD Q287 (PP)

Owned by Vielun Past. Co., Ardno, Jarrah Genetics, ABS Australia.

(IEF-DLF-HYF-MSUDF)

Robert Redford sold at the Injemira 2021 auction to the syndicate formed by ABS Australia for a new Australian Hereford record price of \$160,000.

Robert Redford has the capacity to make a huge positive influence on the Australian Herefords as well as the Australian cattle industry as a whole. Robert Redford is one of only six Supersires in the Hereford breed.

If we allow the commercial beef cattle industry to dream of the ultimate production machineRobert Redford over Angus Paratrooper daughters!

Marc Greening's sale book comments summarize the bull:

Many are expecting me to say Redford Q287 is the greatest sire ever produced at Injemira but I will leave that up to you to decide! What I can say is that he is absolutely faultless in terms of structure and overall sire appeal. Back in October 2020 he scanned the biggest raw EMA ever for a 'Spring' drop bull and being a 2 y/o heifer's first calf this is an achievement and demonstrates his quality and performance. It is so pleasing to see a bull that when you go into the paddock he is the first you notice then you look at his performance data and this backs it up. The performance data like the bull himself is faultless right throughout. Calving ease, low birth, high growth, huge EMA, positive fats and big marbling. It's just unmatched for a bull with this quality phenotype and is recognised with all his \$index values being in the top 1% of the breed.
